

### REMARKS

The foregoing amendments are made to insert the required SEQ ID NO identifiers associated with various listed sequences, as well as to correct the C34 peptide (SEQ ID NO: 2) as disclosed on page 14. Namely, the peptide on page 14 discloses an extra "Glu" residue at positions 20-22 (i.e.: there should be two, not three, "Glu" residues in this region). Support for correction of said error may be found in Figure 2, where the correct C34 peptide is disclosed.

Applicants believe that the present application is now in condition for allowance. Favorable reconsideration of the application as amended is respectfully requested.
